“How can I see price and coverage options?”

The “Search Coverage” tab mirrors the post-enrollment search experience. Prospective members can search for care and coverages by looking up conditions, procedures, specialties, medications or practitioners.

Please note for fully Insured prospects: Second-opinion services may be visible in the demo environment, but will not be available in the actual product offering.

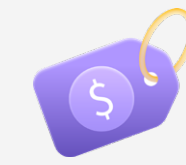

Search by condition, medication, treatment or provider.

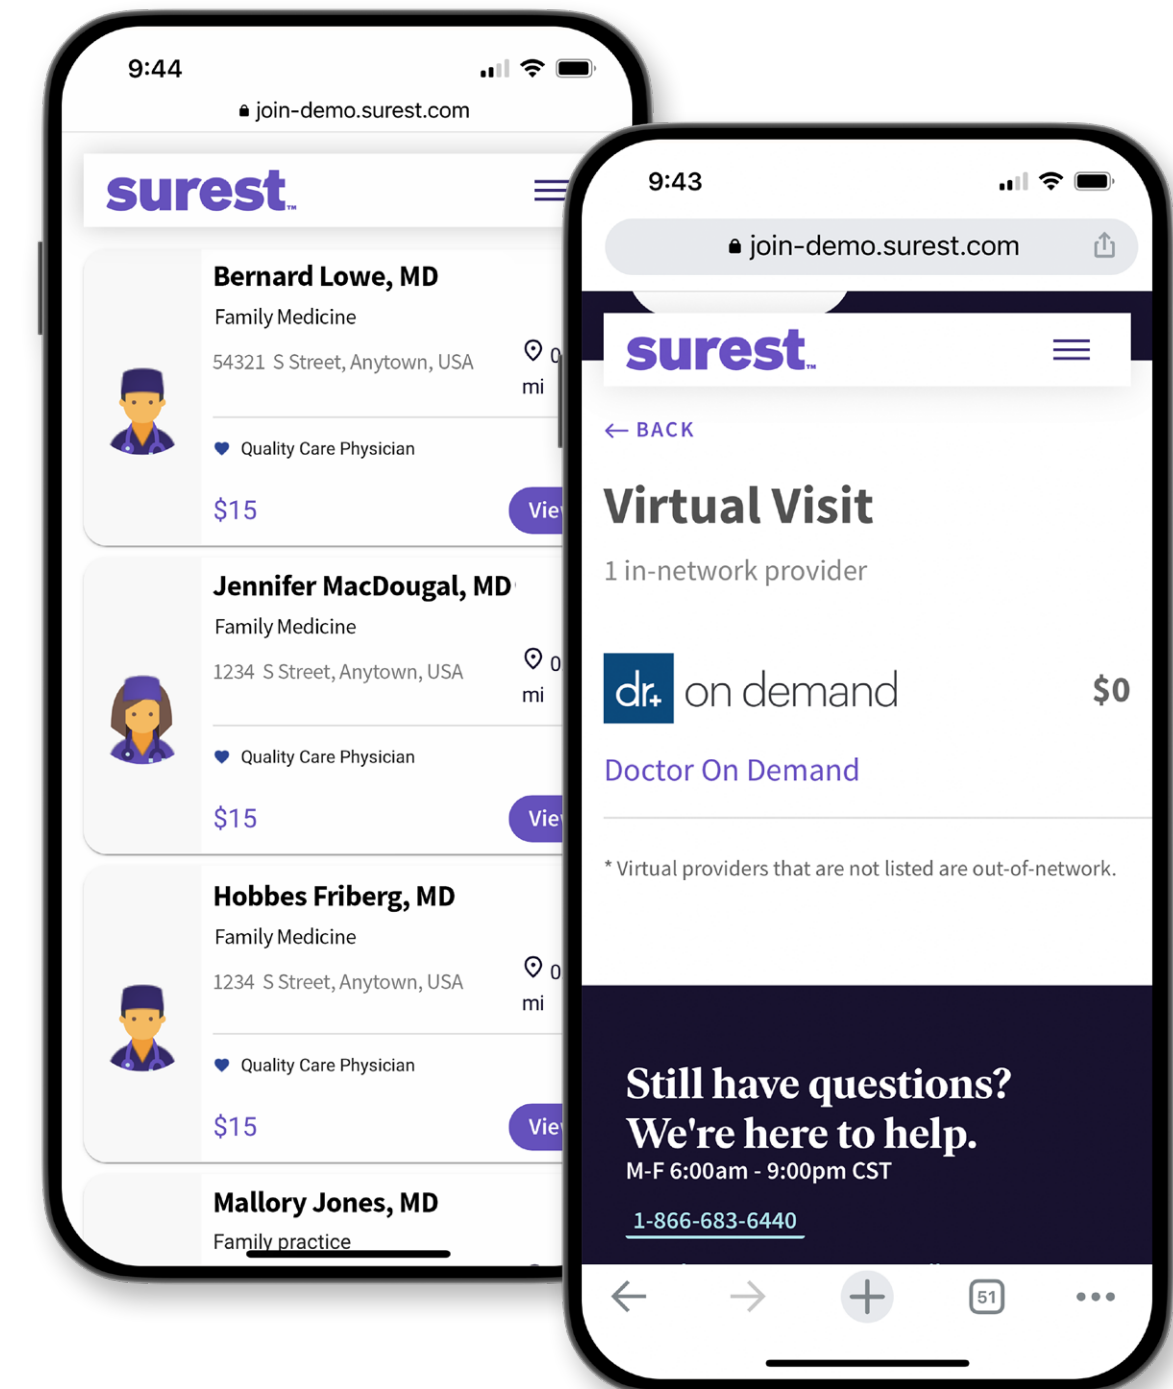

Price visibility may lead to different results.

Prices are lower for what we consider higher-value options, such as those based on quality, efficiency and overall effectiveness of care. When members check prices before seeking or scheduling care — they have the power to potentially save money.

Search providers and compare prices.
